

SECURITY, PERFORMANCE, VALUE... THE WORLDPAY Vx510DC

WorldPay, a leading payment processor in the industry, acquires transactions for businesses like yours from coast to coast - ranging from brand name companies you know to independent businesses in your own community. From point-of-sale authorization through settlement of funds, WorldPay provides the highest standard of payment processing to businesses nationwide.

WORLDPAY PROVIDES:

- Direct connections to Visa®, MasterCard®, Discover®, American Express® and access to the major PIN-secured debit networks
- Convenient, Web-based transaction reporting
- Reliable, 24/7 customer service with over 99% of calls answered within 30 seconds

The benefits of processing with WorldPay don't stop there. The WorldPay Vx510DC, WorldPay's exclusive terminal, provides businesses with increased performance and security at a cost-effective price.

SECURITY

PCI PED approved, the WorldPay Vx510DC offers the latest and most reliable security protections:

- Secure Socket Layer (SSL) encryption
- Triple DES (3DES) encryption
- Tamper resistant

These features work together to provide you with peace of mind. Not only are your transactions secure, but your terminal is safe from tampering, including "slamming" – the unauthorized reprogramming of terminals.

PERFORMANCE

Specifically designed to meet and exceed the needs of small businesses, the WorldPay Vx510DC provides flexible, efficient processing for a variety of card types.

The WorldPay Vx510DC's performance is driven by:

- 200 MHz 32-bit RISC processor — the fastest processor in the industry
- Dynamically Managed Memory (DMM) - which provides exceptional processing on debit, credit, EBT and value-added transactions
- Ethernet Connection for lightning-fast transactions
- Integrated high-speed thermal printer is quiet and fast (18 lines per second) with drop-in, "clam shell" loading to simplify paper changing and eliminate jams, which helps reduce customer wait times

In addition, the WorldPay Vx510DC's compact size, ATM-style interface, large backlit display, ergonomic keys, and bold menu prompts makes it easy to use.

VALUE

Compact, efficient, robust, and intuitive, the WorldPay Vx510DC provides you with all the performance of a larger, more costly terminal, but at an extremely affordable price.
