

# Way 5000

## GET YOUR BUSINESS MOVING

The Way 5000 represents the next generation of small, mobile point-of-sale wireless transaction processing terminals. Process credit and debit card transactions with ease and print cash receipts with the MP100 Infrared Thermal Printer. The Way 5000 lets you accept payments anywhere at any time, and is perfect for transactions on-the-go!

### BENEFITS

- Increase average ticket and sales
- Avoid check hassles and the dangers of carrying cash
- Customers appreciate the convenience of paying with cards
- Works virtually anywhere a cell phone works
- Enjoy the financial benefit of lower rates with card present transactions
- No more lost sales due to incorrect manual key entry
- Fully secure mobile processing
